

Michael Schumacher: The Whole Story

Michael Schumacher is arguably the most successful Grand Prix driver of all time, but despite all the fame and glory, he remained a quiet-spoken, private family man throughout his controversial career. In fact, as much as Schumacher is a global celebrity, he has remained a virtual global stranger.

This 440-page, full colour, hard-cover publication featuring almost 50 colour images, covers his full story, from humble beginnings to fashioning Ferrari in his own image, from a home-made kart to his last race for Ferrari in China in October 2006 and the thrilling battle for his eighth World Championship. Best-selling Formula One biographer Christopher Hilton draws on an immense number of sources to celebrate this unique, fascinating and turbulent career as well as revealing who the stranger really is.
